Anti-tipper function and secure locking into place; when deployed the end of anti-tipper should be approx. 22mm from the ground.				
Security of the quick release wheel attachments				
Wear to folding joints. If there is excessive movement in the joints, take out a stainless steel screw to inspect the polymer bearing that protects the aluminium joint from the fixing screw. The bearings can be replaced if necessary.				

Wear to the handle adjusters clutch mechanism. When the handle does not lock securely the adjusters should be replaced.				
That all screws and fixings are secure; folding joint fixings should not be over tightened.				
Condition and secure attachment of the foam that covers the handle to backrest frame joint.				
Tyre wear and inflation pressure. Standard tyres should be inflated to 20 and 30 p.s.i. (1.4 and 2 bar). Beach wheel tyres should be inflated to between 10 and 15 p.s.i. (0.7 and 1 bar approx).				
Secure attachment of footrest; adjust height if required.				
Check condition of harness and foot-straps; replace if necessary.				
Any other scuff marks / damage				
Instruction manual included				

Terms and Conditions are included				
First Aid kit included				
Accident and Fault Reporting Form included				
Lock included				
Slime and Pump included

------------	--

I agree that I am happy to borrow out the Delta All Terrain Buggy and that I have read the Terms and Conditions, the Instruction Manual and have reviewed the condition of the Delta with the Little Hiccups Agent. I can confirm that I have also been shown how to use the Delta safely and will conform to the safe system of work.
