1. Welcome to Little Hiccups

Little Hiccups is a Leeds based, award winning support group that has been set up by parents who have children with additional needs and disabilities.

Seventeen years ago Linsay, the founder of Little Hiccups gave birth to her little boy, full of the joys of becoming a parent and filled with all of the dreams and aspirations

for their lives ahead.... Those dreams were shattered just a few days afterwards as they very nearly lost their boy. They spent the following weeks in PICU before finally bringing their son home, only to keep returning to the LGI as the extent of his injuries became apparent. Jack had been left with scarring all over his brain, resulting in him having severe cortical visual impairment, he cannot sit, stand, hold up his head, or use his hands. He cannot speak (though he can certainly vocalise and express his teenage strops! He is fed via a gastrostomy, has a very difficult to treat form of Epilepsy called Lennox Gastaut Syndrome which means he has 20-30 seizures a day of every different kind and his condition is life limiting. All that said, he is the most loving and inspirational boy we have ever met.”

The journey he has taken Linsay on since then has been a roller coaster. He is also the inspiration behind Little Hiccups. In fact, he is the reason behind the Little Hiccups name. The name came about because when Jack was first born he appeared to be having ‘little hiccups’. We later found out they were seizures and this was the start of our journey

It is through personal experience we recognise the importance of allowing parents and families of a child with an additional needs/disability the opportunity to meet people in similar situations, to make friends and support each other. Little Hiccups can support families that have a child(ren) aged 16 and under with additional needs or a disability.

We know that to every family that this is an individual journey but we also recognise the importance of sharing the events of that journey with other people in similar situations. We offer a range of support from our Outreach Programme for those families that are just not quite ready to come to one of our sessions. But for those that are, we offer a variety of support from Stay n Play to monthly Family Fun Days.

Thank you for joining us on our journey.

3. What We Do

To access all of our services you need to register online to ensure your eligibility on our website at <https://www.littlehiccups.co.uk/register>

Stay n' Play

A weekly Stay n' Play for under 5's for children with special needs and disabilities. We aim to provide a place where parents/carers can go with their children where they can relax in a safe environment and meet other families in similar circumstances.

<https://www.littlehiccups.co.uk/stay-n-play>

Family Fun Days

A weekend Family Fun Day out and about on a monthly basis for all the family that cannot make the weekly session and because we recognise that the whole family is involved. Our goal is also to show that there are no limits to having fun!

<https://www.littlehiccups.co.uk/family-fun-days>

Hydrotherapy

Hydrotherapy with trained physiotherapists at a reduced cost so that it is accessible to all families.

Counselling

Counselling support for parents and carers who might need a listening ear, support and a safe place, or just let off steam about anything which troubles you.

<https://www.littlehiccups.co.uk/counselling>

Outreach

Not all Parents/Carers feel comfortable in group situations. Having a disabled child can be a real roller coaster of emotions and finding the strength to take that first step towards accepting the reality can be very daunting. For those Parents/Carers who don't yet feel ready, we are happy to meet them for a relaxed and friendly chat over coffee with our Outreach Service because sometimes making that first contact can be a big step forward!

4. Our Values

Support

Our aim is to support families to support themselves. Whether that is emotional, practical or informative support.

Share

We encourage families to join in family events and on social media, to meet other families and to share their highs and lows and experiences.

Experience

Our aim is to make memories that last forever. We want our families to experience life to the full and with friends and family. We believe in No Limits.

5. Our Mission Statement

The aim of Little Hiccups is to provide a support network for families with children with a disability/additional need. This is achieved by:

- Offering a safe and unthreatening place to meet.
- Providing the opportunity to meet people in similar situations, to share experiences, make friends and support each other.
- Providing an environment where children can learn through play, make friends and have fun.
- Providing the opportunity for families to attend experiences that they would not usually access on their own.

Little Hiccups is committed to providing the best possible support for children and families. It aims always to place the needs of the child as a first concern and to act to ensure their safety and protection.

6. Behaviour Statement

Little Hiccups provides opportunities for therapy, fun, friendship and enjoyment for children with additional needs, their brothers and sisters and parents, grandparents and carers and other supporters. Our aim is to be a fully inclusive and transparent charity.

We want to provide a safe, welcoming and fun environment for the whole family and therefore we expect that all staff, volunteers, parents, carers and children show respect, acceptance and tolerance to all who attend Little Hiccups sessions.

We encourage parents to use positive behaviour management and understand that different needs may present different behavioural challenges. We understand that behaviour is a form of communication and allow children to engage with the activities on offer however they feel comfortable, as long as they and the other people attending are safe.

Very occasionally, some sessions might not be suitable for some children. Either for a particular child on a particular day or at that particular stage of their development. We will gather information during the application process to ensure we know as much about your child's needs as possible before a session to help us to decide with you if an activity is suitable or not. We want to support you and your children, so we will do our best to offer an alternative activity.

We will make reasonable adjustments to include all children where possible. For example, we could try to find extra staff or volunteers with relevant experience for additional support during a session. Or we could modify the experience provided in the session, on a planned future occasion, to better meet the child's needs. In our Stay n Play sessions, we could arrange for the child to visit before the session starts so they are able to experience the environment with no other distractions around.

Little Hiccups, % The Barrowbys, 170 Barrowby Lane, Garforth, Leeds, LS25 1NG

Registered Charity No: 1170147 Company Limited by Guarantee No: 9692276

In extreme circumstances, we may have to admit that Little Hiccups is not the right environment for a particular child or family at that time; where this is the case, we will work with the family to find another suitable provision where possible. And of course, just because it is not right at the moment, does not mean that it will not be in the future. We will always be willing to try again.

If you feel, from the description of the experience provided by the session, and your experience of your child's reaction to similar environments that a session would not be suitable, please let us know. We can look at the reasonable adjustments mentioned above to adapt the session to include your child or offer an alternative.

It could also become gradually evident during a session that a new environment and experience is causing a child to be distressed or to behave in a way likely to cause distress for the other children in the session. On this occasion, it might be necessary to end the child's participation in the session. If a child's reaction was thought to be likely to cause a risk to their own safety, or to the safety of others during the session, we might also need to

ask for the child to be withdrawn on that occasion. We would do this discreetly and respectfully.

Everyone at Little Hiccups wants to make attending Little Hiccups sessions a great experience for all the children who attend and their families. We have gained lots of experience over the years that we have been running sessions, but we really do need your expertise as parents and carers to help make this happen. So we would welcome any advice or feedback about services we offer, what we could provide in the future, and what we could try to do differently or as extra support for your child or other children with similar additional needs, to make it a better experience. It might take some time or even a bit of extra fundraising, but we will do our best to make it possible for everyone who comes to Little Hiccups to take away a great experience.

"I joined Little Hiccups originally in 2012 so I could spend more time with my God-daughter Freya and to help in any way I could. Since then I have been roped into multiple extreme events and ridden from Liverpool to Leeds!

My primary role has been to help out on our monthly trips out....I'm normally the loud guy you all see when you first arrive with a big smile and three kids hanging off me. I really enjoy Little Hiccups and think it's a fantastic way of meeting new people and having loads of fun.

If you ever see me at an event and you want to chat just give me a prod and say Hi!!"

I am mum to Jack, who is profoundly disabled and the most amazing boy ever! However life with a disabled child is a real roller coaster of emotions and challenges. Seeing other parents in Clinic I realised I wasn't alone and that support from others going through similar situations is invaluable. That was what inspired me to start Little Hiccups, to give parents a chance to meet others, share experiences and help focus on the positives that our children bring. It's very easy to

get caught up in hospitals, therapies and meds and lose track of the amazing little person who is stronger than belief and deserves the best shot at everything positive. That's why we try to make as many happy memories with our Little Hiccups as we can! Jack has taught me so much and put my life on a path I wasn't expecting but I wouldn't change it for the world.

A couple of years later I made it onto Team Conquerors and began to face challenges of my own giving me a better understanding of what life can be like for a child with additional needs. I

Hello, Conqueror Sazzle reporting for duty. So I've been fund-raising for Hiccups for some years now. It started with jumping into the sea on Boxing Day 2010, then joining Hiccup Conquerors in 2014, A year later I was trustee. I've done my stint as chair. As a team we have made some amazing achievements and battled some challenges. It's a total joy to be part of it all. I am a learning Disability Nurse by trade but really it's what I eat, sleep and breath. I've always believed that carer

and family support is an important part of my role. Hence the underpinning values of Little Hiccups is something I've always wanted to support.

As part of the committee I enjoy actively being involved with events and helping the charity to grow. Watching families thrive with the support of Little Hiccups is one of the core elements of the charity making all this worth it. I also get to enjoy some amazing days out with you all.

James Thompson

Position: Trustee

James is the head of the clinical negligence team at Ison Harrison Solicitors and a Director of the firm. He is a member of the Law Society Clinical Negligence Accreditation Scheme and is an accredited Senior Litigator with the Association of Personal Injury Lawyers (APIL). His accreditations means that we are one of the few specialists able to undertake legal aid work for those who qualify and wish to choose this funding option.

James deals with all types of clinical negligence, but specialises in acting for patients with life changing catastrophic injuries including Erb's & Cerebral Palsy. He also supervises the senior lawyers in the team, manages the department and is a member of the firm's Senior Management Team.

James gets job satisfaction from helping people. He always wanted to be a lawyer and was interested in medicine from a young age. He likes solving complex problems. Being a clinical negligence lawyer was the perfect fit for him as it allows him to use his eye for detail, analytical skills, ability to communicate complex issues clearly, effectively and construct persuasive arguments so as to help others in their time of need. He fights hard and smart for his clients and delivers a high standard of care.

It is really difficult for James to pick a case which means the most to him as he has been fortunate to have successfully represented so many lovely clients and their families over the years. However, since he became a father he has to confess that he finds working for children and their parents close to his heart. He understands the need to know what happened and why, to have lessons be learnt and avoid it happening to others. He does not underestimate the importance for a parent to know that their child will

be safe and secure if anything happens to them in the future. He is also keen to ensure that as part of understanding what happened and why, parents learn to accept that it was not their fault and they must leave any guilt they carry.

James and his team are the only Erb's Palsy Group (EPG) recommended solicitors in the North of England, <http://www.erbspalsygroup.co.uk>

Outside of work, James is kept busy with his 2 young children and two German Wire Haired Pointers.

Heather Watson

Position: Trustee

I'm Heather and I've volunteered at Little Hiccups since 2016 after finishing my degree at Leeds College of Music. During term time I'm a Head of Year at a High School but during the holidays you will find me clambering round the soft play area during the Stay n' Play sessions and dressed in brightly coloured, normally glittery, fancy dress at the Hiccups parties. Every couple of years you will also find me head to toe in mud as part of Team Conquerors and yes there is glitter under the mud.

B Williamson

Position: Trustee / Stay n Play Facilitator

Hi. Let me introduce myself.

I'm B or Twanky, some of you may even know me by my Sunday name Belinda!!

(The only time you will catch me in a dress is at a Little Hiccups Ball)

I joined Little Hiccups as a parent back in 2013 after meeting Linsay and Jack at a Christmas party.

Myself and my wife Karen are foster parents for children with disabilities.

Karen was a Learning Disability nurse for 25 years. And I worked as a Senior Support Worker for the NHS in Challenging Behaviour and Learning Disabilities for 9 years before changing from Adults to children and fostering for Leeds City Council. We have two adopted SEN children and one Foster Child.

I'm very sociable, love watching sport, baking and attending Little Hiccups events!

As my journey has finally taken me full circle with Little Hiccups. Finally getting to attend Stay n' Play, I thought it was about time I registered as a

9. Meet Some Families

Case Study: Tilly

“Our little girl Tilly is 3 years old and has Rett Syndrome which is a rare genetic condition meaning in simple terms Tilly will need 24 hour care for the rest of her life.

She can lie and sit and is now standing and weight bearing, but can't talk and can't use her hands. Physiotherapy is crucial to her well-being and hydrotherapy is a key part of that.

Waiting lists for Hydrotherapy are so long, so we were delighted when Little Hiccups offered us a place funded by Children In Need last year at Armley Pool. Tilly went every week and spent time with two physios who moved her in ways I wouldn't have even considered or been confident to do. And the results were amazing, she got stronger and continues to do so. She loves the weightlessness feeling being in the water gives her and she loves kicking about and testing her strength. They showed us more challenging postures to do with her too and how to move her in different ways.

The end result is that swimming has become more a family event for Tilly and her older sister Thea (4) and she always says on her eye gaze that she wants to go to the pool. She is brave and confident and loves being moved around and the feelings of being light.

This was only possible because of the Hydro offered by Little Hiccups and we were and are so grateful for that because physio and communication

are so important and this is key to Tilly's happiness and well-being apart from getting her stronger. If she is happy, she is more able to cope with the challenges she faces, always with a smile and a gently loving nature.

Tilly is just doing so well and took her first steps the other week with a walker after they said she would never walk. So we thank little Hiccups and Children In Need for helping us to help Tilly enjoy life to the full."

Case Study: Zara

"I can't praise these yoga sessions highly enough – Debs and Emily the teachers are great, they are so gentle, patient and accommodating, they take the time to really tune in to the children and constantly adapt the session to suit their needs. We felt instantly welcome when we first arrived. Zara so obviously enjoys it, as her parents so do we! It's a great time to bond with Zara, she really

responds to the movement and closeness and we can tell how relaxed she is by the end of the session.

It's really great that Little Hiccups can provide sessions like this, because normal children's activities are often not suitable – for example children's yoga will often be divided into 'crawlers', 'toddlers' etc and Zara doesn't fit into any of those categories. It's difficult to find group activities that are suitable for Zara so she misses out on the socializing that her brother and sister did at the same age."

Case Study: Oscar

“We recently hired the Medium Delta when Oscar had a hip problem start overnight and he couldn’t walk at all. All the Little Hiccups team were great when I rang in a flap as we were struggling to carry 30kgs of child around everywhere. The Delta was great. It was comfortable for Oscar, practical for our lifestyle, especially at the farm and easy to use. Thank you for your help Little Hiccups. Oscar didn’t want to return the Delta so I’m sure we will be hiring one again soon!”

Other Testimonials

“When I was first told about Little Hiccups I was very apprehensive and wasn't sure what to expect but from our first visit over 3 years ago we have felt at ease and welcomed. It gives families with SEN children hope and most importantly support. We meet every week and it feels so good knowing we can be somewhere where nobody will judge or mutter under their breaths about us. We have monthly outings to places I'd never think of going and very cost-effective which makes it possible to make "normal" memories. I personally feel like we're one big family and I haven't a clue where we would be without Little Hiccups. It feels like an escapism from the real world.”

“As a parent of a child with additional needs, Little Hiccups gave me the support I needed to successfully navigate our new world. Little Hiccups offer brilliant opportunities for outings as well as stay and play. They have guided and signposted us to other services that we were unaware of like Hawthorn. Meeting other families in the same boat, although our children are all unique, has provided an essential network. We love Little Hiccups!”
